CSDE Skill Enhancement Course
Corporate Valuation using Excel-Based Financial Models**

ABOUT

A highly volatile, globalised, risky business environment makes valuation increasingly relevant. Valuation is probably the most fundamental concept in finance and a necessary skill to hone. It provides valuable insights into a company's financial health, market position, and growth potential. This Course intends to go beyond the basics, exploring the drivers behind value creation and delving into the intricacies of financial modelling with a practical focus on case-driven pedagogy using Microsoft Excel. You will gain the requisite knowledge and tools to understand the impact of strategic, operational, and financial decisions on value creation. Join us and unlock the power of value-driven excellence!
